

*For Teams and Individual  
Entrepreneurs*

# The Elemental Entrepreneur Workshop & Program Series

*Transforming 'ideas into action' demands a focused, logical approach to analyzing and defining practical steps and requirements essential for success. **The Elemental Entrepreneur Workshop & Program Series** offers a range of tools & methods to support and coach entrepreneurs through this critical and developmental process.*

*The Elemental Entrepreneur Workshop & Program Series* steps entrepreneurs through a business planning & development process that moves from *Planning for Business Success* through *Business Process Mapping* to *Leading for Innovation & Performance*. In addition, one-to-one *Executive Coaching* can provide a short-term intervention to help entrepreneurs shift performance to the next level.

**Elemental Consulting** works with teams and individual entrepreneurs to transform their vision and ideas into a series of practical business processes. Clarity and understanding of 'how to make it happen' offers entrepreneurs the confidence and support to explore funding opportunities, communicate business ideas and goals and determine the steps necessary to start and operate their enterprise.

Hands-on, practical workshops help the entrepreneur explore and define processes, connections, systems and critical elements essential for business success.

Elemental Consulting will deliver your services with authenticity, honesty and integrity.

## *Business Success Planning Workshop*

This facilitated workshop guides the entrepreneur through a detailed goal setting and planning process which identifies the key activities and actions required for business success.

## *Business Process Mapping Workshop*

This facilitated workshop coaches the entrepreneur through a business process mapping session which results in a detailed process flow of required business operations.

## *Leading for Innovation & Performance Program*

Today's leaders and entrepreneurs need to be responsive to constantly changing business demands and demonstrate agility in moving their people and organizations forward to success. This program equips leaders and entrepreneurs with the tools and understanding to improve personal, team and organization performance and drive innovation across all areas of their business.

## *Entrepreneur Coaching Programs*

Our coaching programs offer entrepreneurs a one-to-one business relationship with a *Certified Leadership Coach* based on trust and confidentiality. This relationship provides the methods, tools and support to improve personal performance, identify and address business challenges and explore potential opportunities to increase business performance and success.
